

Grow the Feed, Not the Weeds.

# V-45RR Alfalfa

## **Strengths**

V-45RR is among the **First** Round up tolerant alfalfa variety available to alfalfa growers. It can assist alfalfa grower produce weed free forage resulting in increased forage quality due to reduced weeds in the forage. V-45RR is capable of exceptional forage yield capabilities especially where weed pressures are a problem

## **Benefits**

Excellent weed control would result in a weed free high quality hay.

Yield	<u>Good</u>		
Maturity	<u>Medium</u>	<b>Soil Adaptability</b>	<u>Excellent</u>
Quality	<u>Excellent</u>	Well-drained soils	<u>Excellent</u>
Recovery after Cutting	<u>Very Good</u>	Moderately-drained soils	<u>Very good</u>
Persistence	<u>Very Good</u>	Poorly-drained soils	<u>Very Good</u>
Winter Injury Tolerance	<u>Very Good</u>	Grazing	<u>Very Good</u>
Fall Dormancy Rating	<u>4</u>	Irrigated soils	<u>Very Good</u>
Root System Structure	<u>Tap</u>	<b>Disease Resistance</b>	
Crown Structure	<u>Average</u>	Anthracnose	<u>HR</u>
		Aphanomyces Root Rot	<u>HR</u>
		Bacterial Wilt	<u>HR</u>
		Fusarium Wilt	<u>HR</u>
		Phytophthora Root Rot	<u>HR</u>
		Verticillium Wilt	<u>HR</u>
		<b>Insect Resistance</b>	
		Pea Aphid	<u>R</u>
		<b>Nematode Resistance</b>	
		Stem Nematode	<u>R</u>
