USG 7514ET

USG Seed is also available through many local Ag Retailers and Farm Supply Stores

RELATIVE MATURITY 5.1

STRENGTHS

- · Rps1c Phytophthora Gene
- First-place by 2.5 bushels in North Carolina breeder data
- · Stem Canker and PRR resistance
- · Good height, width, and standability

AGRONOMIC TRAITS					
Pubescence	Gray				
Flower	White				
Hilum	Buff				
Pod	Brown				
Growth Type	Bushy				
Growth Habit	Indeterminate				
Plant Height	Medium-Tall

Seeds containing the Enlist, Herculex and PowerCore traits are protected under numerous US patents. Seeds containing patented traits can only be used to plant a single commercial crop and cannot be saved or replanted. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Technology Use Agreement and (ii) the Product Use Guides for all technologies in this seed, including the Herbicide Resistance Management (HRM), and Use requirements detailed therein (www.cortevaus/Resources/trait-stewardship/hml1). To plant Enlist, Herculex and PowerCore seed, you must have a limited license from Corteva Agriscience. In consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license from Corteva Agriscience. In consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license from Corteva Agriscience in consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license from Corteva Agriscience in consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license from Corteva Agriscience in consideration of the foregoing, Corteva Agriscience grants to the Grower the limited license from Corteva Agriscience in the Enlist trait that provides crop safety for use of labeled over-the-top applications of glyphosaste, gluicosinate and Label and the Enlist strait that provides cortain the Enlist strait that provides crop safety for use of labeled over-the-top applications of glyphosaste, gluicosinate and the Enlist strait that provides crop safety for use in collective Detenhology and are expressly labeled for use on list crops. 24-D products that may be used with Enlist crop containing genes that confer tolerance to 2,4-D and -fop herbicides will damage or kill crops that are not locked. Detenhology are not substituted to a containing determine if a product is registered for sale or use in all states or counties. Contact your state pes

Enlist £3 soybean seeds containing the Enlist trait can only be used to plant a single commercial crop. It is unlawful to save and replant Enlist £3 soybeans. Additional information and limitations on the use of these products are provided in the Corteva Agriscience Technology Use Agreement and Enlist Soybean Product Use Guide. U.S. patents for Dow AgroSciences technologies can be found at the following webpage: www.corteva.us/Resources/trait-stewardship.html.
